Professional Summary

Dedicated and versatile Full-Stack Software Developer with hands-on experience in designing, developing, and deploying modern web and mobile applications. Skilled in React, Next.js, Node.js, Java Spring Boot, and .NET, with a strong foundation in database-driven systems and API integrations. Proven ability to deliver reliable fintech, enterprise, and government applications with a focus on performance, scalability, and user experience. Passionate about building impactful digital solutions and solving complex technical challenges.

Commercial Projects

- Core Banking System (Next.js, Java Spring Boot, MySQL)
  - Engineered a secure and scalable core banking system to handle internal account operations.
  - Designed robust APIs for transactions, customer management, and reporting.
- Mobile Banking App for Core Banking Users (React Native, Java Spring Boot)
  - Developed a mobile application enabling customers to securely access their banking accounts.
  - Integrated fund transfers, account statements, and balance notifications.
- BingetBirr Mobile Money Application (React Native, Java Spring Boot)
  - Developed mobile apps for customers and agents with dynamic UI using CMS, where all pages, services, styles, and content are fetched from requests.
  - Integrated with multiple banks and SMS gateways.
  - Currently Implemented and have thousands of users
  - Web-view applied to access external web Applications
- Ticketing Management System to manage operational tasks and track issues.
- BingetBirr Content Management System (Next.js, MongoDB, node.JS)
  - Built a CMS to manage dynamic UI, content, and services for the BingetBirr platform.
- Integrated Financial Vendor APIs including CBE, Awash Bank, Abyssinia Bank, Dashen Bank, Zemen Bank, Abay Bank, COOP, Oromia Bank, Amhara Bank, Chapa,

- Binget Digital Lending System (CodeIgniter, Ext JS, MySQL)
  - Developed a full-scale lending system to automate micro-loan management and approval workflows.
  - Improved transaction efficiency and system reliability for financial operations.
- Binget Micro-Lending Platform (PHP, Ext JS)
  - Created a separate lending platform for tiered customer services and repayment tracking.
  - Integrated with internal finance modules for centralized data processing.
- BingetBirr Support & Operations
  - Provided continuous maintenance and optimization for BingetBirr's live payment infrastructure.
  - Monitored uptime, handled production issues, and ensured regulatory compliance.
- One Window Property Listing System (React.js,PHP, mySql)
  - Designed and developed a property listing platform with advanced search and listing management.
- One Window eLearning System (Next.js, mySQL)
  - Built an eLearning web system with video streaming, user enrollment, and progress tracking.
- Membership Management System (Next.js, Node.js, PostgreSQL)
  - Developed a complete web solution for member registration and administrative control.
- Kebele Government Management Mobile App (React Native, Node.js, PostgreSQL)
  - Built a mobile platform for local government service tracking and citizen management For oromiya Prosperity party
- Integrated Million Designer with Chapa Payment Gateway for seamless digital payments and Integrated with Geez SMS API for OTP-based authentication and notifications.
- Online Learning Platform for Architecture Students (Freelance)
  - Developed an educational platform tailored for architecture students to access digital learning materials.

Professional Skills

- **Web Development**: ReactJs, NextJs, PHP (CodeIgniter)
- **Mobile Development**: React native, Flutter
- **UI/UX Design**: HTML5, CSS3, JavaScript (extJS), Bootstrap

- **Network & Server Management**: Linux, Windows Server, Network Configuration
- **Backend**: Node.js, PHP (CodeIgniter), Java Spring Boot, .NET, C#
- **Databases**: MySQL, PostgreSQL, MongoDB, MS SQL
- **API Integrations**: Chapa, Geez SMS, Bank APIs, Payment Systems
- **Other Skills**: REST APIs, System Design, Version Control (Git) -
- **Soft Skills**: Team Collaboration, Problem Solving, Time Management, Analytical Thinking

Work Experience

- Software Developer, Binget Microfinance S.C (2023–Present) - Developed and managed multiple fintech systems including BingetBirr mobile money, CMS, core banking, and mobile banking applications. Delivered secure, scalable, and user-focused digital finance tools.
- Software Developer, One Window Properties & Training Institute (2022–2023) - Built web-based systems for real estate and eLearning, improving digital accessibility and system efficiency.
- IT Intern, Commercial Bank of Ethiopia (2021–2022) - Installed and configured IT systems, resolved hardware/software issues, and maintained network operations.

Education

Bachelor of Science in Information Technology — Hawassa University (2018–2022)

Languages

English: Proficient in speaking, reading, listening, and writing
Amharic: Excellent in speaking, reading, listening, and writing
Oromiffa: Proficient in writing and reading
